Solapur, Maharashtra, India

Objective

Dedicated AI and Data Science undergraduate with strong analytical, statistical, and data-visualization skills. Experienced in data cleaning, statistical analysis, and building dashboards that translate raw data into actionable business insights. Seeking a Data Analyst internship to apply data-driven decision making to real business problems.

Education

N. K. Orchid College of Engineering & Technology Solapur, Maharashtra
Bachelor of Technology in Artificial Intelligence and Data Science – CGPA: 8.5/10 Aug. 2023 – Present (Expected 2027)

Technical Skills

Programming Languages: Python, R, SQL, Java, JavaScript
Data Analysis & Manipulation: pandas, NumPy, scikit-learn, data cleaning, statistical analysis, A/B testing
Data Visualization: Matplotlib, Seaborn, Tableau, Power BI, Advanced Excel (Pivot Tables, Charts)
Database Management: MySQL, PostgreSQL, MongoDB
Statistics & Concepts: Hypothesis Testing, Regression, Probability, Feature Engineering
Communication: Data storytelling, report writing, stakeholder presentations

Projects

Customer Churn Analysis
– Analyzed telecom customer data from Kaggle to identify patterns and root causes of customer churn.
– Built Logistic Regression and Decision Tree models achieving up to 81% accuracy and 0.84 AUC.
– Provided actionable business insights such as focusing on first-year retention and payment-method risk, directly influencing retention strategy.
Technologies: Python, pandas, matplotlib, seaborn, scikit-learn.
Decision Analytics Dashboard | Business Intelligence, KPI Tracking, Visualization 2025
– Built an executive-style dashboard to visualize key performance indicators (KPIs), trends, and operational metrics for data-driven strategic planning.
– Enabled faster decision-making by translating complex datasets into intuitive insights for non-technical stakeholders.
CinePulse – Live Media Trend Analytics | FastAPI, D3.js, WebSockets Feb. 2025 – Apr. 2025
– Built a real-time dashboard tracking content trends by region, genre, and popularity; streamed metrics via a WebSocket API using asynchronous FastAPI.
ABTestify – A/B Test and Feature Rollout System | Next.js, Redis, Firebase, Chart.js Apr. 2025 – May 2025
– Created a dashboard for live A/B testing and experiment-result analytics with bucketed users; implemented flag-gating logic and cohort-based visualization.
Data & Model Quality Monitoring System | Risk Management, Analytics 2025 – Present
– Developed a monitoring framework to track data drift and performance degradation in analytical models, implementing early-warning indicators to mitigate business risk.

Experience

Fullstack Web Development Intern Unified Mentor Pvt. Ltd
Data-Driven Product Development Jul. 2025 – Jan. 2026
– Derived insights from user interaction and telemetry data to optimize product features; used event-streaming analytics (Kafka, Spark Streaming) for near real-time dashboards, anomaly detection, and alerting.
AI/ML Lead Google Developer Groups on Campus (GDG-NKOCET)
Data-Focused Community Leadership Sep. 2025 – Present
– Conducted workshops on data analysis, visualization, and ML for a 200+ student community; mentored students on translating data into decisions.

Achievements & Certifications

IEEE First-Author Publication on multilingual sentiment analysis, presented at ICCTWC 2026.
Hackathon: 1st Place Hack to Future 3.0 (600+ teams); 1st Runner-Up Orchathon 2K26 (800+ teams).
Competitive Programming: 366+ LeetCode problems (104 Easy, 176 Medium, 86 Hard) + 50 SQL problems.
Certifications: NPTEL Programming in Java (Elite+Gold); NPTEL Joy of Computing using Python; JPMorgan Chase & Electronic Arts SWE Virtual Experience; Kaggle AI Agents Intensive Course.
Delivered seminars on Chandrayaan-3 and AI; completed 50+ web development projects.
