Software Engineering Internship
Company Address if known

Subject: Application for [Role] – [Your Name]

Dear [Company Name] Hiring Team,

I am a [X]th-year Computer Science student at [University] applying for the [Software Engineer Internship] at [Company]. I have followed [Company]'s work in [specific thing: marketplace app / payment services / consumer products] and I want to build software that real users depend on at scale.

I have built [N] projects end-to-end. My [Project Name], a [description], serves [N users / handles X requests] and cut [metric] by [X]% using [stack]. I have solved [N] LeetCode problems, focusing on [graphs / DP / etc.], and I maintain my full portfolio on GitHub: github.com/yourname. I write clean, tested code – my largest project has [X] unit tests and is deployed with a CI/CD pipeline.

I am drawn to [Company] specifically because [specific reason: global marketplace / engineering blog / English documentation]. I am also studying Japanese and have passed JLPT N5; I am preparing for N4 and am committed to growing my language skills alongside my engineering. I am fully available for the [Summer/Winter] [Year] internship term and can relocate to [Tokyo].

I would welcome the chance to discuss how I can contribute to [Company]. Thank you for your time and consideration.

Sincerely,
[Your Name]
