Solapur, Maharashtra, India

OBJECTIVE

Dedicated AI and Data Science undergraduate with strong analytical, statistical, and data-visualization skills. Experienced in data cleaning, statistical analysis, and building dashboards that translate raw data into actionable business insights. Seeking a Data Analyst internship to apply data-driven decision making to real business problems.

EDUCATION

N. K. Orchid College of Engineering & Technology

Solapur, Maharashtra

Bachelor of Technology in Artificial Intelligence and Data Science – CGPA: 8.5/10

Aug. 2023 – Present (Expected 2027)

TECHNICAL SKILLS

Programming Languages: Python, R, SQL, Java, JavaScript

Data Analysis & Manipulation: pandas, NumPy, scikit-learn, data cleaning, statistical analysis, A/B testing

Data Visualization: Matplotlib, Seaborn, Tableau, Power BI, Advanced Excel (Pivot Tables, Charts)

Database Management: MySQL, PostgreSQL, MongoDB

Statistics & Concepts: Hypothesis Testing, Regression, Probability, Feature Engineering

Communication: Data storytelling, report writing, stakeholder presentations

PROJECTS

NYC Taxi Data Pipeline | *Airflow, dbt, BigQuery, DuckDB*

Jun, 2026

- Built an end-to-end batch ETL pipeline processing **2.96M taxi trips/day** orchestrated on Apache Airflow, modeled in dbt across staging/intermediate/marts layers.
- Wrote **15+ automated dbt data-quality tests**; runs fully locally on DuckDB so results are reproducible without cloud credentials.

Real-time Clickstream Pipeline | *Apache Kafka, Spark Structured Streaming, Docker*

Jun, 2026

- Streamed **10,000+ events/sec** of simulated clickstream data through Kafka into Spark Structured Streaming for sessionization, top-page ranking, and anomaly detection.
- Benchmarked end-to-end latency at **<500ms p99**; containerized Kafka/Zookeeper/Spark via Docker Compose and justified Kafka vs alternatives in the design notes.

Bank Marketing Campaign Analytics | *pandas, scikit-learn, Matplotlib, Seaborn*

2025

- Analyzed a 45K-record Portuguese bank marketing dataset to identify subscriber-drivers; engineered features and compared Logistic Regression, Decision Tree, and Random Forest.
- Delivered actionable segments (age/contact-channel effects) and documented evaluation trade-offs (precision vs recall for a 12%-class imbalance).

EXPERIENCE

Fullstack Web Development Intern

Unified Mentor Pvt. Ltd

Data-Driven Product Development

Jul, 2025 – Jan, 2026

- Derived insights from user interaction and telemetry data to optimize product features; used event-streaming analytics (Kafka, Spark Streaming) for near real-time dashboards, anomaly detection, and alerting.

AI/ML Lead

Google Developer Groups on Campus (GDG-NKOCET)

Data-Focused Community Leadership

Sep, 2025 – Present

- Conducted workshops on data analysis, visualization, and ML for a 200+ student community; mentored students on translating data into decisions.

ACHIEVEMENTS & CERTIFICATIONS

IEEE First-Author Publication on multilingual sentiment analysis, presented at ICCTWC 2026.

Hackathon: 1st Place Hack to Future 3.0 (600+ teams); 1st Runner-Up Orchathon 2K26 (800+ teams).

Competitive Programming: 366+ LeetCode problems (104 Easy, 176 Medium, 86 Hard) + 50 SQL problems.

Certifications: NPTEL Programming in Java (Elite+Gold); NPTEL Joy of Computing using Python; JPMorgan Chase & Electronic

Arts SWE Virtual Experience; Kaggle AI Agents Intensive Course.

Delivered seminars on Chandrayaan-3 and AI; completed 50+ web development projects.
